

FARMERS EC CAREERS

# Engineering & Information Technology

COLLABORATION | EXPERIENCE | INNOVATION | OPPORTUNITY

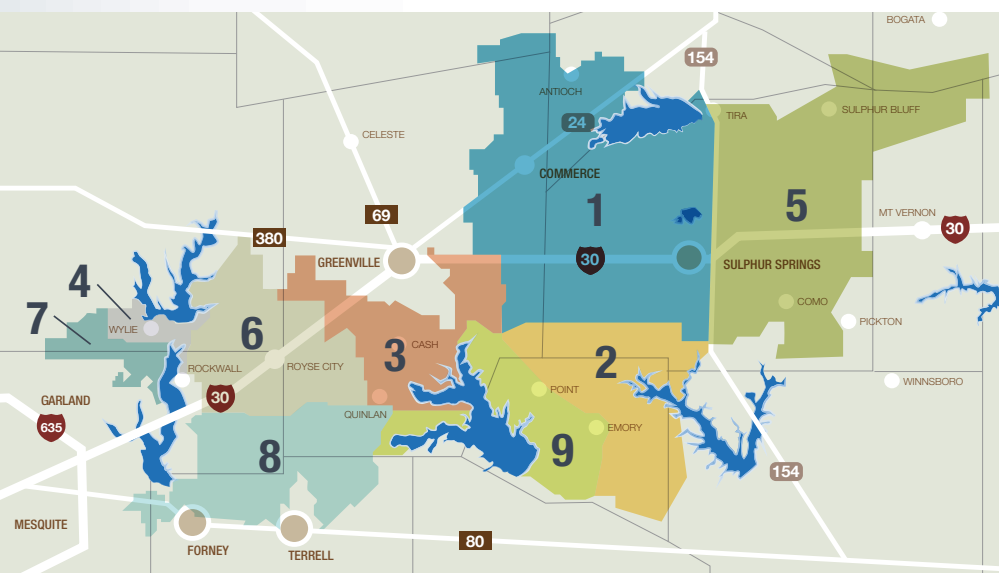

## WE SERVE OVER 53,000 MEMBERS IN 12 COUNTIES

**FARMERS EC IS MORE THAN JUST AN ELECTRIC UTILITY—  
IT'S AN ELECTRIC COOPERATIVE AND A NON-PROFIT  
ORGANIZATION THAT IS LOCALLY OPERATED AND OWNED  
BY ITS MEMBERS.**

Our core mission is to improve the quality of life in the communities we serve—by providing safe, reliable, and affordable electricity, and by supporting our friends and neighbors. The Seventh Cooperative Principle, “Concern for Community,” gives us that responsibility, and that’s why we participate in community involvement projects, like 4-H clubs, school safety demonstrations, and many more.

Our work is guided by the principle that anything worth doing is worth doing well. It’s why neighbors came together in the 1930s to launch a cooperative and bring electricity to rural farms. And, it’s why we continuously look for improvements and innovations in energy management, member service, and all areas of the business of supplying power. We carefully manage natural resources and our dedicated employees, and we plan strategically to keep electricity prices low, and service and reliability high.

We believe Farmers EC is a great place to work and we’re confident you will, too.

### DISTRICT SERVICE MAP

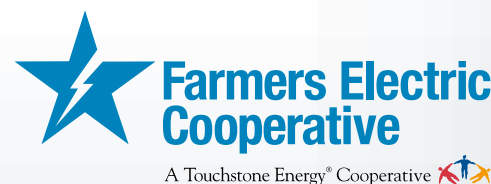

Currently, our co-op is serving more than 53,000 homes and businesses in the fast-growing region of Dallas, Collin, Rockwall, Hunt, Kaufman, Rains, Hopkins, Delta, Franklin, Fannin, Van Zandt, and Wood counties in Texas.

### QUICK FACTS

- ▶ We were founded in 1937 by neighbors seeking to bring electricity to their rural farms.
- ▶ We employ more than 100 people in engineering, I.T., accounting, management, member service, and other professions.
- ▶ We serve more than 53,000 homes and businesses in 12 Texas counties.
- ▶ We are a cooperative, which means it’s owned by those it serves.

## WE’RE MORE THAN A JOB, WE’RE FAMILY. EMPOWER YOUR FUTURE AT FARMERS EC.

# TECHNOLOGY IS POWER

IT TAKES A LOT OF  
PEOPLE TO PRODUCE  
AND DISTRIBUTE POWER,  
ESPECIALLY PEOPLE  
WITH ENGINEERING  
AND I.T. SKILLS.  
PEOPLE LIKE YOU.

## ENGINEERING

ELECTRICAL ENGINEERS  
ENGINEERING TECHNICIANS  
FIELD ENGINEERING COORDINATORS  
GENERAL TECHNICIANS  
GIS SPECIALISTS

Co-ops are leaders in adopting new technologies to serve our members better. We still build line, but it requires much more technology today. Technical expertise is required to operate today's distribution network efficiently. We need highly-trained staff to operate our Supervisory Control and Data Acquisition system, troubleshoot our Automated Meter Infrastructure, and keep our information system running seamlessly from the offices to the fleet-based mobile workstations.

If you're looking to use your education, gain experience, and be part of a company that values employees, gives back to community, and is always looking for ways to innovate and improve, Farmers EC is a perfect fit.

Are you always thinking about how things work, or how to make things work better? Let's talk. Members of our engineering team work together to provide designs, specifications, and recommendations to keep our facilities and equipment running optimally. This is the team that makes sure we're able to reliably and safely deliver power to our residential and commercial members throughout Northeast Texas.

## INFORMATION TECHNOLOGY

NETWORK ADMINISTRATORS  
NETWORK SPECIALISTS  
DATABASE ADMINISTRATORS  
PC SPECIALISTS

Do you network, optimize, and troubleshoot in your sleep? Then you're just what we need. Our I.T. team maintains reliability and security within all of our network systems, including our phones, computers, and operating systems. In short, our I.T. team ensures we're able to collaborate with one another and stay connected with our growing membership.

## DEPARTMENTS

HR  
MEMBER CARE  
ACCOUNTING  
OPERATIONS  
SAFETY AND RISK MANAGEMENT

Taking care of our 100+ employees is something Farmers EC takes seriously. We're always on the lookout for skilled and committed professionals.
